

Albannach Einnseanair Ltd

client case study

FV Christina S, Fraserburgh

CHRISTINA S (IMO: 9388572) is a Fishing Vessel registered and sailing under the flag of United Kingdom. Her gross tonnage is 2411 and deadweight is 2990. CHRISTINA S was built in 2008 by SEVMORVERF. CHRISTINA S length overall (LOA) is 71.962 m, beam is 14.5 m and maximum draught is 8 m.

Albannach Einnseanair Ltd were approached to carry out a major service on the ammonia RSW Chillers. The service consisted of, removing the ammonia charge to clean receiver vessels, renewal of all pressure relief valves, new oil filters fitted and oil changed, shaft seal replacement on Howden MK6 WRV/XRV 204 starboard compressor, oil coolers rodded out and two oil level sensors renewed and calibrated during the vessel shutdown period. Both systems commissioned and leak checked.

Chief Engineer Willie Morrison commented on the excellent service carried out by the Albannach Einnseanair Ltd engineers.

“The engineers were very experienced in RSW Chillers and they carried out the major service within the time schedule we had given them and to an excellent standard. I would highly recommend them to other fishing vessels working in the North East of Scotland and vessels further a field.”
